During swimming lessons whistles are used to communicate with the children, they will be reminded in class by the teachers but please can parents also remind children of the commands below:

- **One Whistle** - Swimmers to listen to the teacher
- **Two Whistles** - Swimmers to swim to the nearest side and listen to instructions from their teacher
- **Three Whistles - Emergency Situation** - All swimmers to swim to the nearest side of the pool, climb out and await further instructions from the teacher or lifeguard.

- If you should see anyone or think someone is taking photos please tell the teachers on poolside or a committee member.
- Please respect these regulations

Safeguarding

At **Abingdon Swimming Club** for our lessons in the shallow end of the pool our teachers will often teach in the water and may need to manually support your child . They will be using **physical manual support techniques** (flat hand on back of head/hands under shoulders) to help your child. They will be supporting your child in full view of parents and only when required and only as long as they deem necessary and safe. We feel supporting children in the water is the best way to help them develop their confidence and start swimming.
